Currently pursuing a post-graduation in Computer Software and Database Development at Loyalist College Holding a BCA from Gujarat University, completed several projects with 3 years of IT experience, seeking for a co-op opportunity.

Summary of Qualifications

- Technical expertise includes proficiency and confidence in utilizing industry-leading tools and platforms, including **Visual Studio Code**, **SSMS**, **Docker**, **Cisco Packet Tracer** and most **AWS services**.
- Possess excellent **Communication**, **Collaboration**, **Problem-Solving**, and **Time Management** skills, enabling effective interaction with teams, efficient issue resolution, and successful project delivery.
- **Certification**: **AWS Developer Associate**, **Microsoft Azure fundamentals** and **Data Fundamentals**, **IBM AI-Developer**, **Delphix Virtualization** and **Masking Specialist,** **Cisco Cybersecurity** and **Networking Basics**.

Work Experience

Senior System Engineer   **[May 2021- April 2023]**
Infosys- Chandigarh, India
[MSSQL Server, Delphix, Splunk, Remote Desktop Protocol, ServiceNow]

- Utilizing **RDP** for VM connectivity optimized server latency and Contributed to **MSSQL** Server's major migration to **Delphix** virtual server.
- Maintained **SSMS** Servers, utilized **Splunk** for latency monitoring, provided client support and collaborated via **ServiceNow**.

Software Developer   **[June 2019- May 2020]**
SculptSoft- Gujarat, India
[JAVA, Hibernate, REST API, MySQL, Microsoft Office Essential]

- Engaged in client project activities with **data analysis** and **collection**, **SOP's** and business proposal **Presentation**.
- Contributed to **Java**, **Hibernate** framework, **MySQL** projects, integrating 3rd-party **REST APIs** for client needs.

Education and Training

Ontario College Graduate Certificate in Computer Software and Database Development   **[May 2023-Present]**
Loyalist College in Toronto, ON.
Course: API integration, CISCO package Tracer, Docker and project management

Bachelor of Computer Application   **[June 2017-March 2020]**
Gujarat University, India.
Courses: OOPS concept, Data structure algorithm, database connection and software testing

Projects

Bidding War   **[6 months]**
Sculptsoft- India.
[Java, Hibernate, MySQL]
Online auction website developed in Java uses Hibernate to send JDBC Requests to MySQL database.

Emotion Detector   **[1 month]**
IBM Workshop- Canada.
[Python, Flask, IBM Watson]
Text prompt engine built with Python, Flask, and IBM Watson that give the values of emotion to text.

Weather Checker   **[1 month]**
Loyalist College- Canada.
[Go, REST APIs, React.js]
Weather checker built with Go, REST APIs and React.js that predicts the weather report of a week.
